SUBJECT : RECOMMENDATION LETTER

It was a pleasure of mine to work side to side with the motivated team of ProGroup Consultants, our joint efforts have contributed in plotting the developmental map of Greater Amman Municipality, ProGroup team has conducted an analytical study aiming at determining the gaps and weaknesses in human resources management systems at the Municipality and recommending the needed actions to rectify the gaps and improve our management systems, the findings and recommendation of ProGroup team will effect the operations and management systems of the Municipality leading at the total development of the current practices and polices .

ProGroup methodology of information gathering and analysis have shown great care to insure the integrity of data collection and analysis, as the recommendations of the consulting team is a proof of the Group's professionalism and experience .
